

SOWN STORIES broadcast in Polish Radio Lublin #stayhome

Since September 2019, the Lublin Open Air Village Museum has been hosting a broadcast **Sown Stories** - a series of 52 programmes, each of which will be dedicated to a different topic. The broadcasts will be about customs, rituals, traditions and the everyday life and work of people from the past era - those living in the village, in a provincial town or a manor house. The programmes will also reveal the secrets of the Museum's operation, present historic objects from the museum's main exhibition or the nooks and crannies of its warehouses. There will be plenty of stories about animals and plants which can be found at the open-air museum in Lublin.

We invite you to listen to the broadcast on the Polish Radio Lublin every Saturday at 6:00.

After the broadcast, the programme will be available on the Radio's website under the link:
