

PROSPECT OF THE MUSEUM PARKING'S RENOVATION Civil budget project of the City of Lublin

We are happy to hear that the amount of PLN 500,000 has been donated to the Civil budget project of the city of Lublin for the upcoming year, which will be slated for the renovation of the car park, which is located by Warszawska Avenue in front of the Lublin Open Air Village Museum.

In particular, we would like to thank Vice-President Beata Stepaniuk-Kuśmierzak for her kindness and personal commitment to this matter. We hope that the councillors will vote in favour of this investment so that the number of parking spaces will increase and the current view of the surface, which can be seen in the photo, will be history.
